PJ Abdul Kalam

K SANTHANAM,
retired scientist

We are totally naked vis-a-vis China, which has 200 nuclear bombs, the vast majority of which are H-bombs. How can any govt protect the nation's security unless it accepts that... Pokharan-II was a failure."

(IWPC) in the capital.

He went on to say that it was up to the government of the day to factor in the economic and diplomatic considerations before tak-

4,000 km, if it is capable of taking a load of just 20 kt (kilotonnes).

The bomb dropped over Hiroshima in August 1945 was just
